SYNOPSIS
Designates New Jersey Big Data Alliance as State’s advanced cyberinfrastructure consortium.

CURRENT VERSION OF TEXT
As amended by the General Assembly on June 16, 2014.

(Sponsorship Updated As Of: 7/1/2014)
AN ACT designating the New Jersey Big Data Alliance as the State’s advanced cyberinfrastructure consortium, and supplementing Title 52 of the Revised Statutes.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. a. The New Jersey Big Data Alliance is designated as the State’s advanced cyberinfrastructure consortium. The purpose of the consortium shall be to encourage State government, academia, and industry to address, in a strategic and coordinated manner, the significant and immediate challenges posed by the proliferation of big data sources and the resultant deluge of digital data. Major initiatives shall include, but not be limited to: (1) encouraging the creation of joint education programs, including the establishment of a common curriculum for data sciences and the creation of coordinated certificates, workforce training, and outreach programs; (2) promoting inter-university research collaborations; (3) catalyzing interaction with national and international data consortiums, such as the National Consortium for Data Science; (4) organizing events that promote big data education and collaborating across State government, academia, and industry; (5) collaborating with the Rutgers Discovery Informatics Institute and the Office of Information Technology to develop an advanced cyberinfrastructure plan for the State; and (6) collaborating with the Rutgers Discovery Informatics Institute on the development of a shared data cloud that integrates data infrastructure, hosted data, and data analytics.

b. The New Jersey Big Data Alliance shall consist of the following members: Rutgers, the State University; Princeton University; New Jersey Institute of Technology; Rowan University; the Richard Stockton College of New Jersey; Kean University; Montclair State University; and the Stevens Institute of Technology. The New Jersey Big Data Alliance shall determine the appropriate size of its membership and admit future members as the alliance deems appropriate.

c. As used in this section:

“Big data” means high volume information assets, high velocity information assets, high variety information assets, or all three, that require new forms of processing to enable enhanced decision making, insight discovery, and process optimization.

The term “cyberinfrastructure” includes, but is not limited to, data networks, computational facilities, computing resources, large

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.
Matter enclosed in superscript numerals has been adopted as follows:
1Senate SEG committee amendments adopted January 30, 2014.
2Assembly floor amendments adopted June 16, 2014.
data sets, specialized software applications, information technology usage improvements, and the human expertise necessary to develop and manage these resources.

2. This act shall take effect immediately.
